Office 18 and 20 Ninth Street.

TUESDAY, JUNE 27, 1893.

A summer cyclone swooped down on Perry, Kansas, and killed twenty people and injured many more.

For the first fifty days of the Fair the paid admissions were 3,976,806, or an average of 79,534 per day.

The Methodist exhibitors by formal action have decided not to withdraw their exhibits from the Fair on account of Sunday opening.

The Morganfield Sun says Hon. I. A. Spalding will have more to do with distributing the Collector's patronage than any man in Union county.

Forger Frank P. Searce has voluntarily emerged from his hiding place and turned himself over to the custody of the officers. His stealings now foot up \$33,070.

Hon. Wm. Mutchler, of Easton, Pa., Democratic member of Congress from the Eighth Pennsylvania district, died suddenly of heart disease Friday.

Circuit Judge Green, of Williams-town, has decided that a man who cannot read the instructions of the court is not a competent juror.

From the published reports the banquet to the Legislature Thursday night turned out to be a stupendous drunk that lasted all next day with some of the jiggers.

Teresa Urea, a young Indian girl of the State of Sonora, Mexico, it is claimed, performs miraculous cures by the laying on of hands. The Indians worship her as a saint.

Four Kentuckians have so far landed good consulships, viz: Claude M. Thomas, at Marseilles; W. S. Kinkadee, at Southampton; Thos. C. Jones, at Funchal; and Ben H. Ridgely, at Geneva, France, England, Madeira and Switzerland are the countries that get them.

The Democrats have nominated Thos. M. Field to represent Woodford county in the next Legislature. He is a new man in public life and won his nomination in a primary election over Editor Tobias Gibson, a brother of the late Senator Gibson, of Louisville.

The United States Circuit Court has declared unconstitutional the anti-cigarette law of Washington State, which makes it unlawful to sell or give away cigarettes in the State. The law is held to be a violation of article 1, section 8 of the constitution of the United States.

W. D. McCoy, of Indiana, the colored United States Minister to Liberia, is dead, leaving a vacancy to be filled by the appointment of some good colored Democrat. McCoy is the fourth U. S. Minister to die at Monrovia within the last twelve years. He had been in Liberia less than eighteen months.

The pension appropriation was \$10,882,232 for the year ending June 30, and Commissioner Lochner's reforms have not only prevented a deficit, but he will return to the treasury a surplus of \$1,500,000. Until the department got into honest hands, the probable deficit was estimated at \$1,500,000 to \$2,000,000.

Scribner's Magazine for July contains a striking article in the Men's Occupations series by W. Clark Russell (the writer of sea tales) on "The Life of the Merchant Sailor," giving a graphic account of forecable life in a modern sailing vessel, showing how little it has changed since the old days when Dana wrote his "Two Years before the Mast." The abundant illustrations are by Frank Brangwyn, an English marine artist, whose work is new to American magazines.

The determination of the Legislature to adjourn on July 3 is the most gratifying publication the newspapers have ever made concerning that body. It will on that day have rounded out its 50th legislative day, at a cost to the State of \$2,700 per member. The State has had legislatures before, but never one to equal the unalloyed aggregation that will soon quit trying to make laws, let us hope forever. We can all celebrate the Fourth of July this year with rejoicings never before equaled in Kentucky.

Ninety days from July 3 will be Oct. 2 and under the law all acts passed by the Legislature without emergency clauses will become operative on that date. Perhaps the most important of these will be the Separate Coach Law. That the colored people are not going to accept the law without giving the railroads trouble, is evidenced by the following rather incendiary paragraph from the Indicator, an organ published by representatives of the race in this city: "This infamous and outrageous law against the dignity of the colored citizens will go into effect in a few weeks. The railroads are preparing to carry out the law fully to the letter, but we want it understood that the Indicator has raised the red flag and is marching in front against this class of legislation, and we promise our brothers all over the State that Christian county will raise more money and do more otherwise if needed than any other county in the State. Guard shall we march with the best."

## The Bennett Dog Law was killed in the Senate Friday.

Rolla K. Hart, of Fleming, is the second member of the House to be re-nominated.

Three Georgians are enroute from Atlanta to Chicago on bicycles. They passed through Danville, Ky., Friday.

The Sunday attendance at the Fair is proving a disappointment. It was less than 40,000, paid and free, last Sunday, although the average daily attendance is over 100,000.

The cowboys' race from Nebraska to the World's Fair could not be stopped by the Humane Societies. They are now enroute and expect to reach Chicago to-morrow. They were allowed only three horses in a run of 700 miles.

Now comes the Louisville Post with the statement that there is a law in the charter for fourth and fifth class cities. It is claimed they lacked one of the three readings in the Senate required by the constitution.

In Kentucky according to the last census, there are 230,689 Baptists, 111,602 Methodists, 92,501 Roman Catholics, 7,280 Episcopalians, 14,480 Northern Presbyterians, 18,110 Southern Presbyterians, 15,458 Cumberland Presbyterians, 77,647 Disciples and 2,395 Lutherans.

The conference report on the Charitable Institutions bill has been adopted by the Senate and the bill passed. It will also pass the House. It raises the per capita of asylum patients to \$140 and leaves the Feeble Minded Institute about as it is, with some changes in its management.

The Owensboro Inquirer doesn't like to be reminded that Davies county has been unable to send Democrats to Frankfort of late years, by reason of the badly disorganized condition of the party in that county. Of course there are plenty of Democrats over there, but they don't always vote the Democratic ticket. That's the trouble. Get together, boys, get together.

J. E. Cushing's Harry O'Fallon colt, Boundless, won the great American Derby at Chicago Saturday, a mile and a half in 2:36. St. Leonards was second, Clifford third. Cushing lives in St. Paul. The race was worth \$50,000 to the winner and \$800,000 changed hands on the race. Don Alonzo, the favorite, quit twelfth in a field of fifteen.

To gain strength—Hood's Sarsaparilla. For steady nerves—Hood's Sarsaparilla. For pure blood—Hood's Sarsaparilla.

Collector Powers is still sick in bed and refuses to see the horde of hungry office seekers battering at his sick room door. He has made his bed with the Fidelity and Deposit Company of Maryland and is under no obligations to personal bondsmen. Ab. Powers will be cashier at \$1,800, which is the only appointment so far announced. Col. Powers expects to take charge July 1st. Those who know Col. Powers will feel confident that he will harbor no animosities against those who favored other aspirants, but will treat all good Democrats fairly and endeavor to make his administration not only acceptable to the Government but popular with the people as well.

A Battle for Blood. Is what Hood's Sarsaparilla vigorously fights, and it is always victorious in expelling all the foul taints and giving the vital fluid the quality and quantity of perfect health. It cures scrofula, salt rheum, boils and all other troubles caused by impure blood.

Hood's Pills cure all liver ills. 25c. Sent by mail on receipt of price by C. I. Hood & Co., Apothecaries, Lowell, Mass.

Figure Out Your Chances. Overlooked Menager.

It will be interesting to know how the patronage has been apportioned between the counties composing the district by former collectors. The roster kept in the collector's office makes the following showing during the Wood and Feland administration:

## WILES GOES FREE.

The Jury Treats the Public to a Surprise.

There is No Telling What the Verdict of a Jury Will Be.

Wiles May Now Resume His Arms.

The taking of testimony in the Wiles case was concluded Friday morning. Nothing occurred subsequent to the last report to strengthen the side of the defense. The chain of evidence put together by the Commonwealth was complete in every detail. There never was a stronger case of guilt established in the court house. The great crowds that have heard the testimony from day to day were of one opinion. All agreed that Wiles had deliberately assassinated Walter Weaver from the fence corner, and that no fouler murder was ever committed in the county. And yet in the face of the facts and the plain positive instructions of the court, which left no doubt of the jury's duty in the premises, there were many who shook their heads and said, "Wiles is guilty, but it will be a hung jury." When pressed for reasons the knowing ones lapsed into silence but reiterated the opinion that the jury would be controlled by a minority friendly to Wiles.

THE ARGUMENTS BEING.

It was about 10 o'clock Wednesday morning when the argument of the case began. The first speech for the defense was by Mr. Wm. S. Withers, who had just been admitted to the bar. His appeal to the jury was earnest, logical and plausible. He soon rid himself of a slight embarrassment that hindered him at the beginning and handled his case in a masterly manner. He is nothing of a sky-scraper, but there is in this young man the making of a successful lawyer. A close reasoner, a fluent speaker and an agreeable presence, he early secured the attention of all who heard him and never lost it during his speech, which was nearly two hours long. Considering the bad case he had to work upon, his speech was a remarkable one for a maiden effort and was the best speech by a beginner heard in the Court House for many years.

Mr. Withers was to have been followed by Mr. Jas. B. Allenworth, but that gentleman was unfortunately taken from the case by the sudden death of his brother-in-law, Mr. Chas. O'Neil, and was absent from the city after the first two days of the trial.

The second speech for the defense was made by Mr. W. W. Clarke, who in an address of two hours covered every material point in the case. Mr. Clarke is a speaker whose arguments never fail to hold the attention of his hearers. He studies his cases closely and is thoroughly informed as to the legal points involved upon all questions he undertakes to discuss. His argument was one that did great credit to the high reputation this rising young lawyer already enjoys.

The side of the Commonwealth was opened by County Attorney L. T. Braisher, who discussed the law and facts bearing on the case for two hours and successfully sustained the position advanced by the State, that the killing could have been nothing short of deliberate murder.

Mr. Chas. H. Bush, who ranks at the head of the district bar as a defender, next devoted an hour and forty minutes to a powerful argument for the prisoner's side. He handled the case with ability, tact and consummate skill. He was pathetic in picturing the grievances of Wiles that preceded the killing and powerful in his denunciation of the persecutions he was called upon to endure. Mr. Bush's speech had a visible effect upon those who did not agree with him in his view of the facts.

From 10 till 12 o'clock Saturday morning Mr. Jas. Breathitt held the floor for the prosecution. Mr. Breathitt is justly regarded as the finest orator at the local bar and his speech was worthy of his reputation. It was his first speech of prosecution in a career of fifteen years. It has invariably been his province to represent the defense in criminal cases.

Mr. Breathitt's versatility as a speaker, his ability to cover the whole scope of requirement and his capacity to take either side of a case with equal facility were admirably displayed. Naturally eloquent and possessing a magnificent voice, well trained and pleasant to the ear, his plea for justice to young Weaver's assassin will rank with the most finished forensic efforts heard here for years.

Mr. E. P. Campbell closed the case for Wiles, beginning at 1 o'clock and speaking for two hours and thirty-five minutes. Mr. Campbell has long stood in the front rank of our ablest lawyers. It was expected that his effort in this case would be one of his best and there was no disappointment. In an argument that impressed every one with its force and thorough preparation, he strove to extricate his client from the net-work of evidence that had been woven about him at every point. It is the great lawyer who can take the unpopular side and make a speech that every body will praise, but this is what Mr. Campbell did and his magnificent appeal to the jury won commendation for him on every side.

It was 3:35 o'clock Saturday afternoon when Commonwealth's Attorney Garrett began the closing speech for the State. The court room was packed to the doors and even the gallery was full, so great was the popular interest in the case. About fifty ladies were present. The vast crowd had listened to one side and now looked to Mr. Garrett to present the
